**(205) 391-2219
or (205) 391-2232**

*Classes are offered on
Martin and Fredd campuses*

Air Conditioning and Refrigeration-Technology With Appeal (205) 391-2421

You like to help people. You enjoy doing things with your hands, and technology attracts you. Using the refrigerant to take the heat off the evaporator inside a house and releasing it into the condenser appeals to you. Shelton's Air Conditioning and Refrigeration program is offered on the Martin Campus during the day and evening. With Alabama's climate being what it is, you won't ever have to worry about having a job in this field.

Auto Body Repair-When You Like What You Do, It's Never Really Work (205) 391-2611 or 391-2643

It's fun to paint vehicles and make them look good. You like to see how things are put together. Shelton's Auto Body Repair program teaches you how to estimate panel and glass replacement, refinishing and painting, and replacing electrical systems. Classes are taught during the day on the C.A. Fredd Campus.

Automotive Technology-It's Not Dirty Fingernail Stuff Anymore (205) 391-2642

You're looking for a fast-paced, good paying high-tech career. Working with automobiles on a daily basis is a real challenge to you. That's why you're interested in Shelton's Automotive Service Technology program. The demand for highly trained technicians has never been greater. And the pay has never been better. As a student in the program, you'll get good experience working with members of the Tuscaloosa New Automobile Dealers Association.

Barbering-A Cut Above

You like to work with people and make them feel better. Shelton's Barbering program teaches you the skills and techniques, such as cutting, shampooing, shaving and manicuring, you will need in this exciting field. After completing the program and passing the Barbering exam, a Tuscaloosa County barbering license will be issued. Classes in barbering are offered on the Martin Campus.

Carpentry-You'll Learn to Build More Than Just Houses (205) 391-2611 or 391-2637

You like the outdoors and get a thrill watching something being built from the ground up. With all the construction in West Alabama, the need for good carpenters increases daily. Shelton's carpentry classes are offered during the day and evening and cover areas like blueprint reading, site and wall preparation, and concrete formations. Carpentry classes are taught on the C.A. Fredd Campus.

Commercial Art-Welcome to the Exciting World of Computers (205) 391-2634

Be a part of one of today's fastest growing and most successful careers. Experience the exciting world of computer design while learning programs such as: Illustrator, Photoshop, Pagemaker, and QuarkXpress. Dive into sound, movement, movies and animation with After Effects and Premiere. Experience the art of T-shirt printing, signmaking and visual display. Commercial Art is for you.

Cosmetology-Touching People's Lives (205) 391-2425

Cosmetologists help others look and feel better. More so now than any time in history, the field has the potential for enormous growth and success. The demand for stylists far exceeds the number available. In addition to the basic cosmetology program, Shelton offers the Nail Technician and Esthetics programs. Classes in cosmetology are taught during the day and evening on the Martin Campus.

Diesel Mechanics - There's no other field quite like it (205) 392-2431

Like the beat of the drums. The motor starts. It's the most exciting sound in the world. A diesel motor is something that gets the old adrenaline going. You get a certain feeling in the pit of your stomach when you get around in a diesel motor. In Shelton's Diesel Mechanics program, you'll learn to build an engine. You'll crank it up, operate it and let it run. We'll show you how to tune it and adjust it to manufacturing specifications.

Drafting-Imagine the Possibilities (205) 391-2432

Drafting is a career that satisfies the artistic soul and at the same time, allows you to have a career using the latest technology. Drafting is an engineering-related field. As a drafter you will work hand-in-hand with engineers and architects. Shelton's Drafting program has the latest bells and whistles. Auto CAD 2000, Mechanical Desk Top and Architectural Desk Top are several of our new programs. Classes offered on the Martin Campus.

Electricity-Each Day is a New Challenge (205) 391-2435

Each day offers new challenges in electrical work. That's because technology is constantly changing. You know this field is for you because nothing in it is ever repetitious. Shelton State's Electricity program offers classes in residential and commercial wiring during the day and evening. You'll learn how to wire on up-to-date equipment. Our Electricity curriculum offers both a certificate and an associate degree program.

Electronics-Where the Action Is (205) 391-2460 or 391-2450

In the twenty-first century, electronics is the foundation of technology. It is the high tech field most in demand in today's industrial world. Electronics is an interesting field. You'll work with an unseen force and know what it's going to do. In Shelton's Electronics program, you'll learn the basic principles of the field and a whole lot more. You'll have the option of specializing and going into computer repair, industrial electronics, or electronics communication.

Graphics and Printing Communications (205) 391-2635

If you are interested in entering the field of printing, Shelton State teaches some of the most current methods now being used by the printing industry. Qualified printers are in demand, and Shelton's printing program is one of the few in the West Alabama area. Classes teach the basic skills in camera work, stripping, plate making, and one or two-colored printed jobs. Classes are offered on the C.A. Fredd Campus.

Heavy Equipment Operator-Do Something Different With Your Life (205) 391-2615

Are you tired of sitting behind a desk with the same old job? This is your chance to get started in a field that offers not only a good paying job but a lot of self satisfaction as well. If you like working outside with heavy equipment, Shelton's Heavy Equipment Operator program is for you. The program includes classes in dozer operation, motor grader operation, loader operation, and other construction equipment.

Landscape and Turf Management-A Growing Field (205) 391-2629

You may want to be a professional landscape designer or simply a "do-it-yourself" gardener for your own yard. Whatever your reason, Shelton's Landscape and Turf Management program offers you the chance to learn some great skills that pay huge dividends. Some of the courses offered this fall include introduction to the horticultural industry, ornamental plant and pest management, irrigation systems, and nursery production.

Machine Technology-Wanted: Young Machinists for Tuscaloosa County (205) 391-2444 or 391-2441

With Tuscaloosa County's industrial base growing so rapidly, there is a shortage of young machinists in this area. Now is your chance to get ahead of the crowd. Shelton offers two options as part of our Machine Technology program. You can enter under the machine shop training

continued

program. After learning the basic skills, you can get a job in the field or you can enter computer-aided manufacturing (CNC). As a student in these programs, you'll learn to operate industrial machines, both manual and computer-controlled. These new jobs require new skills. Be smart. Stay ahead of the game.

Nursing-A Calling, Not Just a Career

When you were young, you wanted to be a nurse. Today, you still do. At Shelton we offer several options. The Licensed Practical Nurse and Nursing Assistant programs prepare you for careers in various health care settings. If you're already an LPN, you can enter Shelton's Associate Degree Nursing program through the mobility track, or you can become an associate degree nurse through our two-year program. We also offer a Pre-Nursing program where your first two years are spent at Shelton and your last two years at a four-year school to complete your Baccalaureate degree.

Office Administration-We're About a Lot More Than Just Typing and Shorthand (205) 391-2438

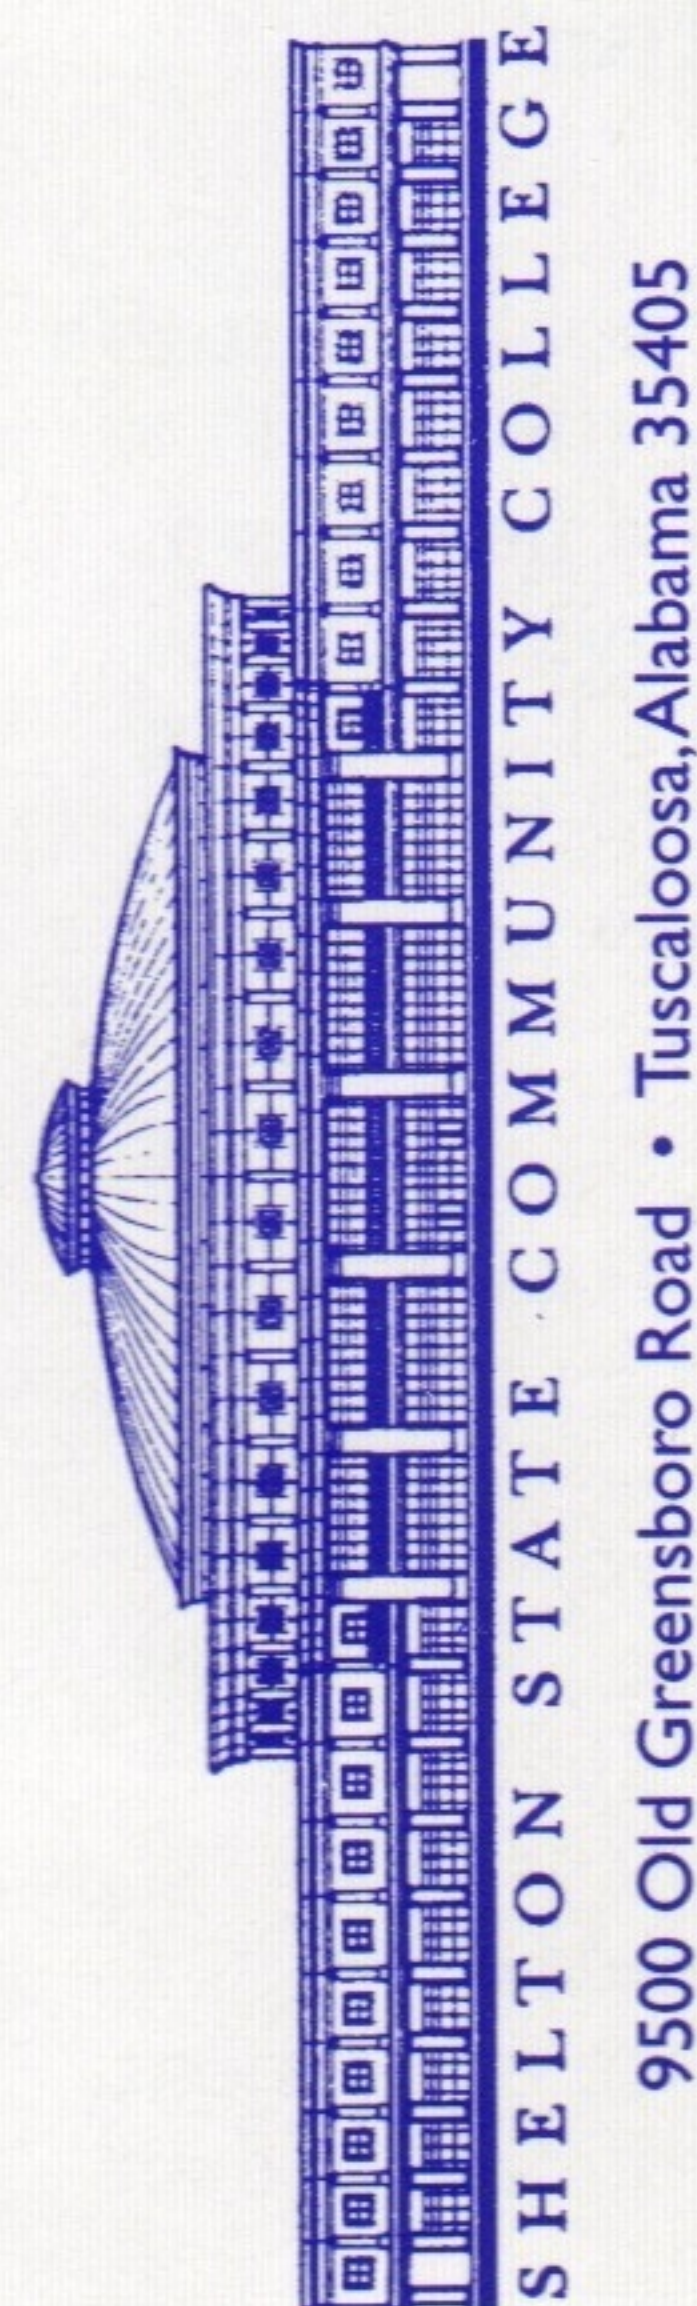

If you want to be on the cutting edge of office skills, Shelton State's Office Administration program is for you. This program provides timely business-related training through specific courses for people who want to learn new skills or upgrade existing ones. Shelton's OAD department offers you the chance to get the skills you need in medical records and medical transcription as well as informational processing, legal technology and stenography.

Truck Driving-What's Your 20? (205) 391-2442

Truck driving is a challenge. However, if you like to be outside and enjoy traveling, operating a commercial motor vehicle or large truck may appeal to you. The pay is good, and more and more women are looking into the field as a career. Shelton's Truck Driving program is an eight-week course taught from 8 a.m.-3 p.m., Monday through Friday. Basic vehicle operation, safe operating practices, maintenance, activities outside driving, and proficiency development are some of the classes offered.

Welding-A Career That Adds a Spark to Your Life-(205) 391-2451

Welding may just be the spark you need for a successful career. Imagine yourself building a huge bridge or a tall skyscraper! Welders make top pay with exciting job challenges. Shelton State's Welding program is offered on the Martin Campus. Call us today to find out more about the program.
